Description

The meeting in Leon, Spain (D.3.1) will act as a monitoring visit where Albanian partners can get support to define the course content to pre-university teachers, university teachers and university students and get useful insight from the other European partners and the Ministry of Education, Sports and Youth:

- 1). Modules for pre-university teachers.** Two modules will be presented: (1) Entrepreneurship in Primary Education, and (2) Entrepreneurship in Secondary Education. These modules have to comply with ASCAP criteria for accreditation and apply for it in June 2022, so they can be implemented within the pilot phase from October 2022.
- 2). Module for university students:** Innovation Camp (as in the UTU learning visit-D.2.1).
- 3). Module for university teachers:** Innovation camp (practical) + transferability/applicability to foster entrepreneurship among students in their disciplines/subjects (debate among university teachers).

During the meeting in León, the following aspects for each module will be presented and discussed: core content, learning objectives and outcomes, competences, delivery methods, activities and assessment methods.

Additionally, the Albanian Entrepreneurial Network (AEN) (D.3.3) will be presented. The AEN is created to support and develop competencies of teaching. The network guarantees the homogeneity expected by the Ministry of Education, Sports and Youth in order to accomplish a comprehensive VET system for teacher training.
